NVQ Circular: 03/2014

Equivalence of National Certificate in Technology (NCT)-Electrical and Electronic programme into NVQ Level 5

National Certificate in Technology (NCT) Electrical and Electronic is a part-time programme conducted by the Department of Technical Education and Training (DTET) for those who employed in the relevant fields. Practical experience is expected to gain through full time work experience during the course (three years).

On the request of the Department of Technical Education and Training, the NCT (Electrical and Electronic) programme (new curriculum) has been mapped to NVQ level 5. The mapping performed by a subject specialist and a panel of three Chartered Electrical & Electronic Engineers have verified the report. Subsequently, the Board of Commission has approved the report subjected to the following conditions,

- Since the curriculum of NCT used after 2001, is referred for mapping process, only
 those who have successfully completed NCT after 2001 are eligible to apply (new
 syllabus) for equivalent qualification through this scheme.
 This scheme is applied only for those who have successfully completed NCT
 (electrical and electronic) under new syllabus which was delivered to offer from year
 2001 onwards.
- 2. The equivalence will be issued only for the field of specialization (either Electrical or Electronic)
- Candidate shall pass all subjects of the NCT (Electrical and Electronic) programme and obtain the final certificate issued by the DTET
- Candidate shall prove that he/she has covered practical component of the course in the
 work place during the period he/she followed the programme through one of the
 following means,

- a) A service certificate from the employer with a list of duties performed. and
- b) Submit a comprehensive report to prove practical component of the course has been sufficiently covered by the applicant in the workplace during the period he/she followed the programme. The report shall be certified by a Chartered Electrical/Electronic Engineer of his/her organization, where the candidate worked during the period of study

or

- c) In the case, if a candidate had not worked under a Chartered Engineer, such candidate shall compile a report under the supervision of a mentor who is an Electrical/ Electronic Engineer (at least an Associate Member of the Institution of Engineers of Sri Lanka) stating satisfactory coverage of practical component of the course in the workplace during the period he/she followed the programme (A list of relevant mentors could be obtained from the NVQ division of TVEC). The report shall be authenticated by the mentor and same to be submitted along with the application form.
- 5. TVEC shall conduct a professional review (viva voce) based on the report submitted and experience acquired by the candidate. Panel of the viva shall comprise of the panel members who performed the report evaluation and a representative of TVEC. Prospective candidates are required to follow instructions given below in order to obtain NVQ Level 5 equivalent certificates,
 - Submit a formal request with a certified copy of the final NCT certificate issued by the DTET and experience certificate/s (refer clause a and clause b or c) as indicated above
 - II. All candidates have to appear for a professional review to verify the documents under reference and to verify the competencies
 - III. Sum of LKR 2000.00 will be levied from the candidate for processing of individual application and cost of professional review
 - IV. Any other costs incurring in this connection, have to be borne by the candidate

Dr. S.D. Perera

Director General
